Forms

Page 2

**CAPABILITY EVALUATION RECORD FORM RD13**

**METHOD OF EXECUTION**

1. Description: Description or name of the item for which the added capability is being applied.
2. Part Number: Manufacturer's part number of the item for which the added capability is being applied. An open dash (-) indicates more than one configuration of the item is possible.
3. Manufacturer: The name of the manufacturer of the item for which the added capability is being applied.
4. Addition: Check this block if the application is for the addition of the article to the Capability List.
5. Removal: Check this block if the application is for the removal of the article from the Capability List.
6. Remarks: Provide remarks relevant to the Process Evaluation in this area if needed.
7. Accountable Manager Endorsement: Signature of the Accountable Manager signifying acceptance of the facility functions pertinent to the proper processing for the capability being applied for.
8. Date: Date the Accountable Manager endorsed the record being applied for.
9. Chief Mechanic Endorsement: Signature of the Chief Mechanic signifying acceptance of the facility functions pertinent to the proper processing for the capability being applied for.
10. Date: Date the Chief Mechanic endorsed the record being applied for.
11. Chief Inspector Endorsement: Signature of the Chief Inspector signifying acceptance of the facility functions pertinent to the proper processing for the capability being applied for.
12. Date: Date the Chief Inspector endorsed the record being applied for.
13. FAA Rating: Enter the current rating directly from the Operation Specifications that permits us to add the subject PN to our capability list.
14. Work Nature: The highest level of maintenance we are permitted perform. (Refer to the 8130-3 block 11 for options). This will also include "(Excluding hydrostatic testing)" when the item requires a hydrostatic test as a part of its maintenance procedure.
15. Make/Model: The make and model of the aircraft the article is intended to be installed on. Example: B737, indicates Boeing 737
16. List Revision Number: This is the next Revision Number we will be forwarding to the FSDO.
17. Date: The date the revision will be sent to the FSDO for acceptance. This date will be set by the addition of the first item to the new revision (reference #16 above). This date may be more than 90 days from the previous revision date.
